

## Section 1: Product and company identification

### 1. Identification of the material

INTAMSYS PPSU Filament

### 2. Identified Uses

Used primarily for extrusion-based 3D printing processes

### 3. Manufacturer information

Manufacturer:

INTAMSYS TECHNOLOGY CO., LTD.

Address:

Building E11, 3188 Xiupu Road, Pudong New Area, Shanghai, China

Tel/Fax:

+86 021 58465932 / +86 021 58463623

### 4. Emergency contact number

Emergency telephone number:

+86 021 58465932; or call LOCAL POISON CONTROL CENTER

## Section 2: Hazards identification

### 1. GHS Classification

Not classified.

### 2. Label elements

Symbols/Pictograms: None

Signal word: None

Hazard Statements: Not classified

Precautionary Statements Prevention: None

Response: None

Storage: None

Disposal: None.

### 3. Hazards not otherwise classified (HNOC)

No information available.

### 4. Unknown acute toxicity

No information available.

## Section 3: Composition/information on ingredients

### 1. Substances

Chemical Name	CAS No.	Weight (%)	Exposure Limits
Polyphenylsulfone	25608-64-4	≥99.0%	None

## Section 4: First aid measures

## Safety Data Sheet

### 1. Description of first aid measures

#### 1.1. Inhalation

Move exposed person to fresh air. Keep person warm and at rest. Get medical attention if symptoms occur. Loosen tight clothing such as a collar, tie, belt or waistband.

#### 1.2. Skin contact

Molten material can cause severe burns. Do NOT try to peel molten polymer from the skin. Cool rapidly with water. Wash with soap and water. Get medical attention if symptoms occur.

#### 1.3. Eye contact

Particles or fibers may cause slight discomfort similar to getting dust in the eye. Remove particles by irrigating with eye wash solution or clean water, holding the eyelids apart. Check for and remove any contact lenses. Get medical attention if irritation occurs.

#### 1.4. Ingestion

Wash out mouth with water. Move exposed person to fresh air. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person.

### 2. Most important symptoms and effects, both acute and delayed

Burns resulted from contacting or handling heated/molten materials

### 3. Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically.

## Section 5: Fire-fighting measures

### 1. Suitable extinguishing media

Powder, foam, water, water spray, carbon dioxide (CO<sub>2</sub>).

### 2. Special hazards arising from the substance or mixture

Combustible material. In a fire, the polymer melts, producing droplets which may propagate fire. Once started, a fire will tend to self extinguish. Risk of dust explosion. Heating can release hazardous gases.

### 3. Advice for fire fighters

In the event of fire, wear self-contained breathing apparatus. Fire fighters must wear fire resistant personnel protective equipment. Wear chemical resistant oversuit. Avoid dust formation.

## Section 6: Accidental release measures

### 1. Personal precautions, protective equipment and emergency procedures

Lab coat. Impervious gloves. Safety glasses with side shields.

### 2. Environmental precautions

Collect product for recovery or disposal. Notify applicable government authority if release is reportable or could adversely affect the environment.

### 3. Methods and materials for containment and cleaning up

## Safety Data Sheet

If emergency personnel are unavailable, carefully scoop up spilled materials and use a non-sparking or explosion-proof means to transfer material to an appropriate container for disposal by incineration.

### Section 7: Handling and storage

#### 1. Precautions for safe handling

Use normal good industrial hygiene and housekeeping practices. Take precautionary measures against static discharges. Take precautionary measures against static discharges.

#### 2. Conditions for safe storage

Store in a cool, dry, well-ventilated area. Keep away from heat, sparks and flames. Keep containers closed. Avoid moisture contamination. Transferring dry pellets or granules between containers or charging into solvents can cause a build-up of static electricity which can be sufficient to cause fires and/or explosions in the presence of flammable materials. Equipment should provide a means of dissipating any charges that may develop.

### Section 8: Exposure controls/personal protection

#### 1. Control parameters

Exposure Limits:

None established

#### 2. Engineering controls

Provide appropriate exhaust ventilation at places where dust is formed or the material is molten, such as during printing.

#### 3. Personal protective equipment

Wear gloves when handling hot/molten material.

### Section 9: Physical and chemical properties

#### 1. Information on basic physical and chemical properties

Appearance: Filament, Solid

Color: Different according to coloration

Odor: Odorless

Odor threshold: Not available

Softening point: 220 °C

Boiling point: Not applicable

Flash point: Not applicable

Evaporation rate: Not applicable

Flammability: Not available

Upper/lower flammability or explosive limits: Not available

Vapor pressure: Not applicable

Vapor density: Not applicable

Relative density: 1.2 – 1.4 g/cm<sup>3</sup>

Water Solubility: Insoluble

Partition coefficient (n-octanol/water): No available

Auto-ignition temperature: No data

Decomposition temperature: Onset of decomposition > 430 °C

Viscosity: Not applicable

### Section 10: Stability and reactivity

## Safety Data Sheet

### 1. Reactivity

The product is stable.

### 2. Chemical stability

Material is stable under normal conditions.

### 3. Possibility of hazardous reactions

Hazardous polymerization does not occur.

### 4. Conditions to avoid

Avoid extreme heat. Avoid all sources of ignition: heat, sparks, open flames, etc.

### 5. Incompatible materials

Not available

### 6. Hazardous decomposition products

Unlikely under normal industrial use. If the product is heated to temperatures excessively higher than those recommended on the technical data sheet, thermal decomposition is possible. Combustion products may include: carbon oxides (CO, CO<sub>2</sub>).

## Section 11: Toxicological information

### 1. Likely routes of exposure

#### Inhalation:

Non-irritating to the respiratory system.

#### Skin contact:

Non-irritating. Molten polymer will adhere to skin causing deep thermal burns.

#### Eye contact:

May cause physical abrasion in contact with eyes. Molten polymer will cause serious burns to the eyes.

#### Ingestion:

Not hazardous in normal industrial use.

### 2. Symptoms

Dust may irritate throat and respiratory system and cause coughing. Direct contact with eyes may cause temporary irritation.

### 3. Information on toxicological effects

Acute toxicity: Not available.

Skin corrosion/irritation: Dust may irritate skin.

Serious eye damage/eye irritation: Dust may irritate the eyes. Exposed may experience eye tearing, redness, and discomfort.

Respiratory sensitization: Not classified.

Skin sensitization: Not a skin sensitizer.

Germ cell mutagenicity: Not expected to be mutagenic.

Carcinogenicity: no data available

Reproductive toxicity: Not classified.

Specific target organ toxicity - single exposure: No data available

Specific target organ toxicity - repeated exposure: No data available

Aspiration hazard: Due to the physical form of the product it is not an aspiration hazard.

Mixture versus substance information: Not applicable.

Other information: Pre-existing skin and respiratory conditions including dermatitis, asthma and chronic lung disease might be aggravated by exposure.

# Safety Data Sheet

## Section 12: Ecological information

### 1. Toxicity

Fishes: Not available.

Algae: Not available.

### 2. Persistence and degradability

No data available.

### 3. Bioaccumulative potential

No data available.

### 4. Mobility in soil

Not available.

### 5. Other adverse effects

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

## Section 13: Disposal considerations

Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked. A Hierarchy of Controls seems to be common - the user should investigate:

- Reduction
- Reuse
- Recycling
- Disposal (if all else fails)

This material may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use.

## Section 14: Transport information

UN/ID No.: Not regulated

UN Proper shipping name: Not regulated

IMDG Code: Not regulated

Hazard Class: Not regulated

Packing Group: Not regulated

Special precautions: No information available

Marine pollutant: Non-marine pollutant

## Section 15: Regulatory information

### REGULATIONS

The product needs to follow local regulations.

## Section 16: Other information

# Safety Data Sheet

## Revision information

Date of this revision: May 15, 2021
